NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. The Company and Summary of Significant Accounting Policies

The Company

The common stock of Spark Networks, Inc., a Delaware corporation (the “Company”) is traded on the NYSE Amex.

On December 31, 2010, Spark Networks Limited (“SNUK”) distributed its shareholdings in each of HurryDate, LLC; MingleMatch, Inc.; Kizmeet, Inc.; SN Holdco, LLC; SN Events, Inc.; Reseaux Spark Canada Ltd. and Spark SocialNet, Inc. by transferring its shares in those companies to Spark Networks, Inc. Spark Networks, Inc. subsequently transferred all of its shares in the same companies to LOV USA, LLC, a newly formed and wholly owned subsidiary of Spark Networks, Inc. SNUK continues to hold all of the shares of Spark Networks (Israel) Limited, VAP AG and JDate Limited. In addition, SNUK now holds all of the shares of Spark Networks USA, LLC, a newly formed subsidiary into which SNUK has transferred all of its United States based assets.

The Company and its consolidated subsidiaries provide online personals services in the United States and internationally, whereby adults are able to post information about themselves (“profiles”) on the Company’s Web sites and search and contact other individuals who have posted profiles.

Membership to the Company’s online services, which includes the posting of a personal profile and photos, and access to its database of profiles, is free. The Company typically charges a subscription fee for varying subscription lengths (typically, one, three, six and twelve months) to members, allowing them to initiate communication with other members and subscribers utilizing the Company’s onsite communication tools, including anonymous email, Instant Messenger, chat rooms and message boards. For most of the Company’s services, two-way communications through the Company’s email platform can only take place between paying subscribers.

The Company has evaluated all subsequent events through the date the financial statements were issued.

Basis of Presentation

The consolidated financial statements include the accounts of the Company and all of its majority owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

The accompanying unaudited consolidated interim financial statements reflect all adjustments, consisting of only normal recurring items, which, in the opinion of management, are necessary for a fair presentation of the results of operations for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for the full year or for any future periods.

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in the United States (“GAAP”) requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to uncollectible receivables, the useful lives of long-lived assets including property and equipment, goodwill and other intangible assets, income taxes, and contingencies. In addition, the Company uses assumptions when employing the Black-Scholes option valuation model to calculate the fair value of granted stock-based awards. The Company bases its estimates of the carrying value of certain assets and liabilities on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, when these carrying values are not readily available from other sources. Actual results may differ from these estimates.

The consolidated financial statements on this Form 10-Q should be read in conjunction with the consolidated financial statements and related notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2011. Certain information and footnote disclosures normally included in financial statements prepared in accordance

[Table of Contents](#)

with GAAP have been condensed or omitted pursuant to such rules and regulations. The consolidated balance sheet as of December 31, 2011 was derived from the Company's audited financial statements for the year ended December 31, 2011.

2. Adoption of New Accounting Principles

Effective January 1, 2012, the Company adopted Accounting Standards Update ("ASU") No. 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS)." The adoption of ASU 2011-04 did not have a significant impact on the Company's consolidated financial position or results of operations.

Effective January 1, 2012, the Company adopted ASU No. 2011-05, "Presentation of Comprehensive Income." The adoption of ASU 2011-05 concerns presentation and disclosure only, and did not have an impact on the Company's consolidated financial position or results of operations.

3. Net Loss Per Share

The Company calculates and presents the net loss per share of both basic and diluted net loss per share. Basic net loss per share is computed by dividing net loss available to common stockholders by the weighted average number of shares of common stock outstanding.

	For the Three Months Ended March 31,	
	2012	2011
	<i>(in thousands except per share data)</i>	
Net Loss Per Share of Common Stock – Basic and Diluted		
Net loss applicable to common stock	\$ (1,713)	\$ (184)
Weighted average shares outstanding – basic and diluted	20,596	20,587
Net Loss Per Share – Basic and Diluted	\$ (0.08)	\$ (0.01)

All stock options for both periods have been excluded from the diluted weighted average shares outstanding calculation because they would have been anti-dilutive.

4. Revolving Credit Facility

As of March 31, 2012, the Company and its wholly-owned subsidiary, Spark Networks USA, LLC, as well as subsidiaries as guarantors, had a \$15.0 million revolving credit facility with Bank of America, which was entered into on February 14, 2008 with subsequent amendments (the "Credit Agreement"). The Credit Agreement matures on February 14, 2014.

As of March 31, 2012, there was no outstanding amount under the Credit Agreement.

On May 7, 2012, the parties executed a Fourth Amendment to the Credit Agreement (the "Amendment"). The Amendment, among other things, changes the per annum interest rate under the Credit Agreement. Pursuant to the Amendment, the per annum interest rate under the Credit Agreement is LIBOR, or the Eurodollar Rate (as defined in the Credit Agreement) under certain circumstances, plus 2.00%. In the event the Company elects to borrow under a base rate loan, the interest rate is increased to the prime rate plus 1.00%. Under the Amendment, the Company pays a 0.25% per annum commitment fee on all funds not utilized under the facility, measured on a daily basis.

The Amendment removes the requirement that the Company maintain a certain consolidated leverage ratio and consolidated fixed charge coverage ratio. The Amendment also updated the financial covenants regarding the requirement to maintain a minimum consolidated adjusted EBITDA, Jewish Networks minimum contribution, minimum consolidated net liquidity and minimum consolidated revenue during different periods. The Amendment permits the Company to repurchase or redeem equity interests or issue dividends of up to \$4,500,000 during the term of the Credit Agreement. The Credit Agreement also contains other covenants, with exceptions, including restrictions on debt, liens and investments. A default could cause any outstanding amounts to become immediately due and payable and prohibit the company to obtain further credit under the Credit Agreement.

Table of Contents

The Company was compliant with the Credit Agreement's customary affirmative and negative covenants, as of March 31, 2012.

In connection with the original Credit Agreement and the first three amendments thereto, the Company paid deferred financing costs of approximately \$446,000 and \$80,000, respectively. Costs associated with both the original Credit Agreement and the first three amendments thereto were included in prepaid expenses and other, and deposits and other assets. The deferred financing costs are amortized to interest expense in the Consolidated Statements of Operations over the full term of the Credit Agreement. Amortization expense for the deferred financing costs for the three months ended March 31, 2012 and March 31, 2011 were \$4,000 and \$16,000, respectively.

5. Stockholders' Equity

Re-Pricing of Employees Options

In 2009, the Company offered to re-price options for certain employees. These employees could surrender their existing options in exchange for a like number of options with a new grant date, a lower exercise price, a lower number of vested options and a modified vesting schedule. The exchange of options was treated as a synthetic re-pricing, which includes a cancellation and replacement of equity instruments. The incremental expense was approximately \$1 million and is being recognized over the four year vesting term of the newly issued options. The incremental expense recognized for each of the three month periods ended March 31, 2012 and 2011 was \$43,000.

Employee Stock Option Plans

On July 9, 2007, pursuant to the completion of the Scheme of Arrangement, the Company adopted the Spark Networks, Inc. 2007 Omnibus Incentive Plan (the "2007 Plan") authorizing and reserving 2.5 million options. In connection with the Company's Scheme of Arrangement, the 2004 Share Option Plan was frozen; however, all outstanding options previously granted thereunder continue in full force and effect.

Awards under the 2007 Plan may include incentive stock options, nonqualified stock options, stock appreciation rights ("SARs"), restricted shares of common stock, restricted stock units, performance stock or unit awards, other stock-based awards and cash-based incentive awards.

The Compensation Committee may grant to a participant an award. The terms and conditions of the award, including the quantity, price, vesting periods and other conditions on exercise will be determined by the Compensation Committee.

The exercise price for stock options will be determined by the Compensation Committee in its discretion, but may not be less than 100% of the closing sale price of one share of the Company's common stock on the NYSE Amex (or any other applicable exchange on which the stock is listed) on the date when the stock option is granted. Additionally, in the case of incentive stock options granted to a holder of more than 10% of the total combined voting power of all classes of stock of the Company on the date of grant, the exercise price may not be less than 110% of the closing sale price of one share of common stock on the date the stock option is granted.

Table of Contents

As of March 31, 2012, total unrecognized compensation cost related to unvested stock options was \$1.1 million. This cost is expected to be recognized over a weighted-average period of 2 years. The following table describes option activity for the three months ended March 31, 2012:

	Number of Shares (in thousands)	Weighted Average Price Per Share
Outstanding at December 31, 2011	3,583	\$ 3.14
Granted	100	4.18
Exercised	(2)	2.37
Forfeited	—	—
Expired	(4)	3.00
Outstanding at March 31, 2012	3,677	\$ 3.16

Stockholder Rights Plan

In July 2007, the Company adopted a stockholder rights plan. The rights accompany each share of common stock of the Company and are evidenced by ownership of common stock. The rights are not exercisable except upon the occurrence of certain takeover-related events. Once triggered, the rights would entitle the stockholders, other than a person qualifying as an "Acquiring Person" pursuant to the rights plan, to purchase additional common stock at a 50% discount to their fair market value. The rights issued under the Rights Plan may be redeemed by the board of directors at a nominal redemption price of \$0.001 per right, and the board of directors may amend the rights in any respect until the rights are triggered.

6. Segment Information

During the first quarter of 2012, the Company's management modified the internal reporting of its operating segments to: (1) Jewish Networks, which consists of JDate.com, JDate.co.uk, JDate.fr, JDate.co.il, Cupid.co.il, and their respective co-branded Web sites; (2) Christian Networks, which consists of ChristianMingle.com, ChristianMingle.co.uk, ChristianMingle.com.au and Believe.com; (3) Other Networks, which consists of Spark.com and properties which are primarily made up of sites targeted towards various religious, ethnic, geographic and special interest groups; and (4) Offline & Other Businesses, which consists of revenue generated from offline activities and HurryDate events and subscriptions. The Company believes the new segments will provide investors with greater transparency into the performance of the business. Prior period amounts presented in this Quarterly Report on Form 10Q have been reclassified to conform to the current period presentation.

Assets are not allocated to the different business segments for internal reporting purposes.

7. Commitments and Contingencies

Legal Proceedings

Please refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2011 for a description of litigation and claims.

The Company has additional existing legal claims and may encounter future legal claims in the normal course of business. The Company believes it has accrued appropriate amounts where necessary in connection with the above litigation.

8. Income Taxes

The benefit for income taxes for the three months ended March 31, 2012 consists primarily of a \$941,000 income tax benefit for losses incurred by our domestic operations, offset by a \$39,000 income tax expense related to the deferred tax liability associated with our Israeli subsidiary's tax deductible goodwill amortization and the absence of a corresponding deferred tax asset due to a valuation allowance. Additionally, the Company recorded approximately \$13,000 of income tax expense related to interest accrued on its unrecognized tax benefits.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of our financial condition and results of operations should be read in conjunction with our unaudited consolidated financial statements and the related notes that are included in this Quarterly Report and the audited consolidated financial statements and related notes and "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in our Annual Report on Form 10-K for the year ended December 31, 2011 (the "2011 Annual Report").

Some of the statements contained in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this Quarterly Report are forward-looking statements that involve substantial risks and uncertainties. All statements other than historical facts contained in this report, including statements regarding our future financial position, business strategy and plans and objectives of management for future operations, are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "believes," "expects," "anticipates," "intends," "estimates," "may," "will," "continue," "should," "plan," "predict," "potential" and other similar expressions. We have based these forward-looking statements on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. Our actual results could differ materially from those anticipated in these forward-looking statements, which are subject to a number of risks, uncertainties and assumptions including, but not limited to our ability to: attract members; convert members into paying subscribers and retain our paying subscribers; develop or acquire new product offerings and successfully implement and expand those offerings; keep pace with rapid technological changes; maintain the strength of our existing brands and maintain and enhance those brands and our dependence upon the telecommunications infrastructure and our networking hardware and software infrastructure; identify and consummate strategic acquisitions and integrate acquired companies or assets; obtain financing on acceptable terms; and successfully implement both cost cutting initiatives and our current long-term growth strategy, and other factors described in the "Risk Factors" section of our 2011 Annual Report.

General

The common stock of Spark Networks, Inc. (the "Company") is traded on the NYSE Amex. We are a leading provider of online personals services in the United States and internationally. Our Web sites enable adults to meet online, participate in a community and form relationships.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our unaudited Consolidated Financial Statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these unaudited Consolidated Financial Statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, uncollectible receivables, intangible and other long-lived assets, stock-based compensation and contingencies. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. There were no significant changes to our critical accounting policies during the three months ended March 31, 2012, as compared to those policies disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Segment Reclassification

During the first quarter of 2012, we modified the internal reporting of our operating segments to: (1) Jewish Networks, which consists of JDate.com, JDate.co.il, JDate.co.uk, JDate.fr, Cupid.co.il, and their respective co-branded Web sites; (2) Christian Networks, which consists of ChristianMingle.com, ChristianMingle.co.uk, ChristianMingle.com.au and Believe.com; (3) Other Networks, which consists of Spark.com and properties which are

primarily made up of sites targeted towards various religious, ethnic, geographic and special interest groups; and (4) Offline & Other Businesses, which consists of revenue generated from offline activities and HurryDate events and subscriptions. We believe the new segments will provide investors with greater transparency into the performance of the business.

For additional segment information, please refer to Note 6 of the Notes to the Consolidated Financial Statements (the "Notes") elsewhere in this report.

Key Metric – Average Paying Subscribers

We regularly review average paying subscribers as a key metric to evaluate the effectiveness of our operating strategies and monitor the financial performance of our business. Subscribers are defined as individuals for whom we collect a monthly fee for access to communication and Web site features beyond those provided to our non-paying members. Average paying subscribers for each month are calculated as the sum of the paying subscribers at the beginning and end of the month, divided by two. Average paying subscribers for periods longer than one month are calculated as the sum of the average paying subscribers for each month, divided by the number of months in such period. Prior period amounts presented in this report have been reclassified to conform to current period presentation.

Unaudited selected statistical information regarding average paying subscribers for our operating segments is shown in the table below. It should be noted that we have excluded Offline and Other Businesses' average paying subscribers from the table below due to this segment's immaterial size:

	Three Months Ended March 31,	
	2012	2011
Average Paying Subscribers		
Jewish Networks	86,433	91,545
Christian Networks	124,158	47,134
Other Networks	30,115	38,962
Total	240,706	177,641

Average paying subscribers for the Jewish Networks segment decreased 5.6% to 86,433 for the three months ended March 31, 2012 compared to 91,545 in the same period last year. Average paying subscribers for the Christian Networks segment increased 163.4% to 124,158 for the three months ended March 31, 2012 compared to 47,134 in the same period last year. Average paying subscribers for the Other Networks segment decreased 22.7% to 30,115 for the three months ended March 31, 2012 compared to 38,962 in the same period last year.

Results of Operations

The following table presents our operating results as a percentage of revenue:

	Three Months Ended March 31,

Revenue	100.0%	100.0%

Three Months Ended March 31, 2012 Compared to Three Months Ended March 31, 2011

Revenue

Substantially all of our revenue is derived from subscription fees. Less than 5% and 4% of our revenue for the three months ended March 31, 2012 and 2011, respectively, is generated through offline social and travel events and advertising revenue. Revenue is presented net of credits and credit card chargebacks. Our subscriptions are offered in durations of varying length (typically, one, three, six and twelve months). Plans with durations longer than one month are available at discounted monthly rates. Following their initial terms, most subscriptions renew automatically until subscribers terminate them.

Revenue increased 32.8% to \$14.6 million in the first quarter of 2012 compared to \$11.0 million in the first quarter of 2011. The increase can be attributed to higher subscription revenue in our Christian Networks segment. Christian Networks revenue increased 161.3% to \$6.9 million in the first quarter of 2012 compared to \$2.6 million in the first quarter of 2011. The increase in revenue reflects a 185.3% increase in direct marketing investment as we leveraged both online and offline marketing channels. Revenue for the Jewish Networks segment decreased 4.6% to \$6.6 million in the first quarter of 2012 compared to \$6.9 million in the first quarter of 2011. The decrease in revenue is driven by lower average paying subscribers, reflecting a lower average paying subscriber count at the beginning of the first quarter of 2012 versus the first quarter of 2011. Revenue for our Other Networks segment decreased 22.5% to \$1.0 million in the first quarter of 2012 compared to \$1.3 million in the first quarter of 2011. The decrease in revenue is due to a decrease in average paying subscribers, reflecting the elimination of select inefficient online marketing investments. Revenue for the Offline & Other Businesses segment decreased 15.0% to \$91,000 in the first quarter of 2012 compared to \$107,000 in the first quarter of 2011. The lower revenue reflects a reduction in events hosted in the first quarter of 2012.

Cost and Expenses

Cost and expenses consist primarily of cost of revenue, sales and marketing, customer service, technical operations, development and general and administrative expenses. Cost and expenses for the first quarter of 2012 were \$17.3 million, an increase of 55.9% compared to \$11.1 million for the first quarter of 2011. The increase is primarily attributable to a \$6.0 million increase in cost of revenue.

Cost of Revenue. Cost of revenue consists primarily of direct marketing costs, compensation and other employee-related costs (including stock-based compensation) for personnel dedicated to maintaining our data centers, data center expenses and credit card fees. Cost of revenue increased 103.7% to \$11.8 million for the three months ended March 31, 2012 compared to \$5.8 million for the same period in 2011. Direct marketing expenses accounted for the majority of growth, increasing 117.0% to \$10.9 million for the three months ended March 31, 2012 compared to \$5.0 million for the same period in 2011. Direct marketing expenses for the Christian Networks segment increased 185.3% to \$9.8 million for the first quarter of 2012 compared to \$3.4 million in the first quarter of 2011, reflecting growth in both our online and offline marketing channels. Direct marketing expenses for the Jewish Networks segment increased 21.5% to

Table of Contents

\$801,000 in the first quarter of 2012 compared to \$659,000 in the first quarter of 2011. The increase reflects higher investments in offline marketing channels. Direct marketing expenses for the Other Networks segment decreased 66.0% to \$312,000 in the first quarter of 2012 compared to \$918,000 in the same period in 2011, reflecting lower offline marketing investments. Direct marketing expenses for the Offline & Other Businesses segment was the same at \$30,000 for the first quarter of 2012 and 2011.

Sales and Marketing. Sales and marketing expenses consist primarily of salaries for our sales and marketing personnel and other associated costs such as consulting fees. Sales and marketing expenses increased 8.1% to \$973,000 million in the first quarter of 2012 compared to \$900,000 in the first quarter of 2011. The increase can be primarily attributed to growth in compensation expense, third-party email service fees and consulting fees. Compensation expense grew as we built out our customer acquisition team during the second half of 2011. Third-party email service fees increased in direct response to the growth in our Christian Networks business. The addition of a public relations firm in the second half of 2011 boosted consulting fees.

Customer Service. Customer service expenses consist primarily of personnel costs associated with our customer service centers. Customer service expenses increased 33.0% to \$613,000 in the first quarter of 2012 compared to \$461,000 in the first quarter of 2011. The expense increase is primarily attributed to higher compensation costs, reflecting increased support for our growing Christian Networks segment.

Technical Operations. Technical operations expenses consist primarily of the personnel and systems necessary to support our corporate technology requirements. Technical operations expenses increased 13.6% to \$350,000 in the first quarter of 2012 compared to \$308,000 in 2011. The increase is primarily due to lower salary expense, and higher capitalized salaries associated with software development.

Development. Development expenses consist primarily of costs incurred in the development, enhancement and maintenance of our Web sites and services. Development expenses increased 13.6% to \$846,000 in the first quarter of 2012 compared to \$745,000 in 2011. The increased costs reflect higher consulting expenses associated with new product development and placement fees.

General and Administrative. General and administrative expenses consist primarily of corporate personnel-related costs, professional fees, occupancy and other overhead costs. General and administrative expenses decreased 5.3% to \$2.2 million in the first quarter of 2012 compared to \$2.4 million in 2011. The decreased costs are primarily attributed to lower legal fees, reflecting the absence of a patent lawsuit in the first quarter of 2012.

Amortization of Intangible Assets. Amortization expenses consist primarily of amortization of intangible assets related to previous acquisitions. Amortization expenses decreased 86.7% to \$13,000 in the first quarter of 2012 compared to \$98,000 in the first quarter of 2011. The decrease reflects the impairment of computer software in the fourth quarter of 2011.

Interest and Other (Income) Expenses, Net. Interest and other (income) expenses consist primarily of interest income associated with temporary investments in interest bearing accounts and foreign exchange gains and losses related to the intercompany loan with our wholly-owned Israeli subsidiary. Interest and other (income) expenses reflect income of \$127,000 for the first quarter of 2012 compared to income of \$57,000 for the same period in 2011. The change is primarily due to non-cash foreign exchange rate fluctuations related to the intercompany loan with our Israeli subsidiary.

(Benefit) Provision for Income Taxes. Benefit for income taxes for the three months ended March 31, 2012 consists of a \$941,000 income tax benefit for losses incurred by our domestic operations and offset by a \$39,000 income tax expense related to the deferred tax liability associated with our Israeli subsidiary's tax deductible goodwill amortization and the absence of a corresponding deferred tax asset due to a valuation allowance. Our Israeli subsidiary has generated sufficient losses such that a full valuation allowance is maintained against the income tax benefits generated by this entity. Management cannot conclude that such tax benefits meet the more likely than not threshold for realization. Additionally, the Company recorded approximately \$13,000 of income tax expense related to interest accrued on its unrecognized tax benefits. The Company's effective income tax rate for the first quarter of 2012 was 34.1% compared to (166.5%) for the same period in 2011.

Net Loss. Net loss for the first quarter of 2012 was \$1.7 million compared to a net loss of \$184,000 in 2011. The net loss generated in the first quarter of 2012 was primarily due to increases in direct marketing investments.

Liquidity and Capital Resources

As of March 31, 2012, we had cash and cash equivalents of \$12.5 million. We have historically financed our operations with internally generated funds.

Net cash used in operations was \$1.9 million for the three months ended March 31, 2012 compared to cash provided of \$283,000 for the same period in 2011. An increase in direct marketing investments accounted for the decrease in net cash provided by operations.

Net cash used in investing activities was \$672,000 in the first quarter of 2012 compared to \$296,000 in 2011. In the first quarter of 2012, we invested \$649,000 in computer hardware and software.

Net cash provided from financing activities was \$6,000 for the first quarter of 2012 compared to \$0 for the first quarter of 2011. In the first quarter of 2012, the Company received cash proceeds from the exercise of certain options.

We believe our current cash and cash equivalents and cash flow from operations will be sufficient to meet our anticipated cash needs for working capital, planned capital expenditures and contractual obligations for at least the next 12 months. We may be required or find it desirable prior to such time to raise additional funds through bank financing or through the issuance of debt or equity.

Off-Balance Sheet Arrangements

We do not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually, limited purposes. We do not have any outstanding derivative financial instruments, off-balance sheet guarantees, interest rate swap transactions or foreign currency forward contracts.
