NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. The Company and Summary of Significant Accounting Policies

The Company

The common stock of Spark Networks, Inc., a Delaware corporation (the “Company”), is traded on the NYSE MKT.

The Company is a leading global media business, focused on creating iconic niche-focused brands that build and strengthen the communities they serve. Core properties are primarily online dating websites accessible via desktop and mobile devices that enable adults to meet, participate in a community and form relationships with like-minded individuals by utilizing many features on its websites, such as detailed profiles, onsite email centers, real-time chat rooms, instant messaging services, suggested matches, interactive games and advanced searching tools. Today, the Company’s largest and most recognizable websites are ChristianMingle.com and JDate.com. The Company also operates several international websites and maintains physical operations in both the United States and Israel.

Membership on the online dating websites is free and allows registered members to create their own detailed profiles and access searchable databases of member profiles. On the majority of the websites, the ability to initiate most communication with other members requires the payment of monthly subscription fees, which represents the primary source of revenue. The Company offers a variety of subscription plans based upon subscription length and features. Subscriptions renew automatically until subscribers terminate them. The Company also receives incremental revenue from online advertising sales and offline events.

The Company has evaluated all subsequent events through the date the consolidated financial statements were issued.

Basis of Presentation

The accompanying consolidated financial statements include the accounts of the parent company and all of its majority-owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

The accompanying unaudited consolidated interim financial statements reflect all adjustments, consisting of only normal recurring items, which, in the opinion of management, are necessary for a fair presentation of the results of operations for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for the full year or for any future periods.

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in the United States (“GAAP”) requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an ongoing basis, the Company evaluates its estimates, including those related to revenue recognition, cost of revenue, prepaid advertising, website and software development costs, goodwill, intangible and other long-lived assets, accounting for business combinations, legal contingencies, income taxes and stock-based compensation. In addition, the Company uses assumptions when employing the Black-Scholes option valuation model to calculate the fair value of granted stock-based awards. The Company bases its estimates of the carrying value of certain assets and liabilities on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, when these carrying values are not readily available from other sources. Actual results may differ from these estimates.

The consolidated financial statements on this Form 10-Q should be read in conjunction with the consolidated financial statements and related notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. The consolidated balance sheet as of December 31, 2012 was derived from the Company’s audited consolidated financial statements for the year ended December 31, 2012.

Table of Contents

2. Adoption of New Accounting Principles

Effective January 1, 2013, the Company adopted Accounting Standards Update (“ASU”) No. 2013-02, “Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income”. The adoption of ASU 2013-02 concerns presentation and disclosure only, and did not have an impact on the Company’s consolidated financial position or results of operations.

3. Net Loss Per Share

The Company calculates and presents the net loss per share on both a basic and diluted basis. Basic net loss per share is computed by dividing net loss available to common stockholders by the weighted average number of shares of common stock outstanding.

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2013	2012	2013	2012
	(in thousands except per share data)			
Net Loss Per Share of Common Stock – Basic and Diluted				
Net loss applicable to common stock	\$ (3,276)	\$ (1,001)	\$ (6,216)	\$ (2,714)
Weighted average shares outstanding - basic and diluted	<u>22,485</u>	<u>20,625</u>	<u>21,745</u>	<u>20,611</u>
Net Loss Per Share – Basic and Diluted	\$ (0.15)	\$ (0.05)	\$ (0.29)	\$ (0.13)

All stock options for both periods have been excluded from the diluted weighted average shares outstanding calculation because they would have been anti-dilutive.

4. Revolving Credit Facility

As of June 30, 2013, the Company and its wholly-owned subsidiary, Spark Networks USA, LLC have a \$15.0 million revolving credit facility with Bank of America, which was entered into on February 14, 2008 with subsequent amendments (the “Credit Agreement”). The Credit Agreement matures on February 14, 2014.

The per annum interest rate under the Credit Agreement is LIBOR, or the Eurodollar Rate (as defined in the Credit Agreement) under certain circumstances, plus 2%. In the event the Company elects to borrow under a base rate loan, the interest rate is increased to the prime rate plus 1%. The Company pays a 0.25% per annum commitment fee on all funds not utilized under the facility, measured on a daily basis.

On April 25, 2013, the parties executed a Fifth Amendment to the Credit Agreement (the “Amendment”). The Amendment, among other things, updated the financial covenants regarding the requirement to maintain a minimum consolidated adjusted EBITDA, minimum consolidated net liquidity and minimum consolidated revenue during different periods. The Credit Agreement also contains covenants regarding Jewish Networks minimum contribution and the Company’s ability to repurchase or redeem equity interests or issue dividends up to a specified amount, as well as other covenants, with exceptions, including restrictions on debt, liens and investments. A default could cause any outstanding amounts to become immediately due and payable and prohibit the Company from obtaining further credit under the Credit Agreement.

The Company was compliant with the Credit Agreement’s customary affirmative and negative covenants, as of June 30, 2013.

As of June 30, 2013, there was no outstanding amount under the Credit Agreement. In connection with the original Credit Agreement and the first five amendments thereto, the Company paid deferred financing costs of approximately

Table of Contents

\$446,000 and \$111,000, respectively. Costs associated with both the original Credit Agreement and the first five amendments thereto were included in prepaid expenses and other, and other assets. The deferred financing costs are amortized to interest (income) expense and other, net in the Consolidated Statements of Operations and Comprehensive Loss over the full term of the Credit Agreement. Amortization expense for the deferred financing costs for the three and six months ended June 30, 2013 were \$9,000 and \$17,000, respectively. Amortization expense for the deferred financing costs for the three and six months ended June 30, 2012 were \$6,000 and \$10,000, respectively.

5. Stockholders' Equity

On May 7, 2013, the Company issued 2,140,000 shares of its common stock at \$6.25 per share in an underwritten public offering. The proceeds to the Company, net of \$1.1 million of underwriting fees and offering expenses, were \$12.3 million.

6. Stock-Based Compensation

Re-Pricing of Employees Options

In 2009, the Company offered to re-price options for certain employees. These employees could surrender their existing options in exchange for a like number of options with a new grant date, a lower exercise price, a lower number of vested options and a modified vesting schedule. The exchange of options was treated as a synthetic re-pricing, which includes a cancellation and replacement of equity instruments. The incremental expense was approximately \$1.0 million and was being recognized over the four year vesting term of the newly issued options. The incremental expense recognized for the three and six months ended June 30, 2012 was \$43,000 and \$86,000, respectively. The incremental expense was fully amortized as of December 31, 2012.

Employee Stock Option Plans

On July 9, 2007, pursuant to the completion of the Scheme of Arrangement, the Company adopted the Spark Networks, Inc. 2007 Omnibus Incentive Plan (the "2007 Plan") originally authorizing and reserving 2.5 million options with annual increases. In connection with the Company's Scheme of Arrangement, the 2004 Share Option Plan was frozen; however, all outstanding options previously granted thereunder continue in full force and effect.

Awards under the 2007 Plan may include incentive stock options, nonqualified stock options, stock appreciation rights ("SARs"), restricted shares of common stock, restricted stock units, performance stock or unit awards, other stock-based awards and cash-based incentive awards.

The Compensation Committee may grant an award to a participant. The terms and conditions of the award, including the quantity, price, vesting periods and other conditions on exercise may be determined by the Compensation Committee.

The exercise price for stock options may be determined by the Compensation Committee in its discretion, but may not be lower than the closing sale price of one share of the Company's common stock on the NYSE MKT (or any other applicable exchange on which the stock is listed) on the date when the stock option is granted. Additionally, in the case of incentive stock options granted to a holder of more than 10% of the total combined voting power of all classes of stock of the Company on the date of grant, the exercise price may not be less than 110% of the closing sale price of one share of common stock on the date the stock option is granted.

Table of Contents

As of June 30, 2013, total unrecognized compensation cost related to non-vested stock options was \$1.6 million. This cost is expected to be recognized over a weighted-average period of 3 years. The following table describes option activity for the three months ended March 31, 2013, and June 30, 2013:

The rights are not exercisable except upon the occurrence of certain takeover-related events. Once triggered, the rights would entitle the stockholders, other than a person qualifying as an "Acquiring Person" pursuant to the rights plan, to purchase additional common stock at a 50% discount to their fair market value. The rights issued under the Rights Plan may be redeemed by the board of directors at a nominal redemption price of \$0.001 per right, and the board of directors may amend the rights in any respect until the rights are triggered.

Some of the statements contained in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this Quarterly Report are forward-looking statements that involve substantial risks and uncertainties. All statements other than historical facts contained in this report, including statements regarding our future financial position, business strategy and plans and objectives of management for future operations, are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "believes," "expects," "anticipates," "intends," "estimates," "may," "will," "continue," "should," "plan," "predict," "potential" and other similar expressions. We have based these forward-looking statements on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. Our actual results could differ materially from those anticipated in these forward-looking statements, which are subject to a number of risks, uncertainties and assumptions including, but not limited to our ability to: attract members; convert members into paying subscribers and retain our paying subscribers; develop or acquire new product offerings and successfully implement and expand those offerings; keep pace with rapid technological changes; maintain the strength of our existing brands and maintain and enhance those brands and our dependence upon the telecommunications infrastructure and our networking hardware and software infrastructure; identify and consummate strategic acquisitions and integrate acquired companies or assets; obtain financing on acceptable terms; and successfully implement both cost cutting initiatives and our current long-term growth strategy, and other factors described in the "Risk Factors" section of our 2012 Annual Report.

We are a leading global media business, focused on creating iconic niche-focused brands that build and strengthen the communities they serve. Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our unaudited consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these unaudited consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to revenue recognition, cost of revenue, prepaid advertising, website and software development costs, goodwill, intangibles and other long-lived assets, accounting for business combinations, legal contingencies, income taxes and stock-based compensation.

We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

There were no significant changes to our critical accounting policies during the six months ended June 30, 2013, as compared to those policies disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

Key Metric - Average Paying Subscribers

We regularly review average paying subscribers as a key metric to evaluate the effectiveness of our operating strategies and monitor the financial performance of our business. Subscribers are defined as individuals from whom we collect a monthly fee for access to website features beyond those provided to our non-paying members. Average paying subscribers for each month are calculated as the sum of the paying subscribers at the beginning and end of the month, divided by two. Average paying subscribers for periods longer than one month are calculated as the sum of the average paying subscribers for each month, divided by the number of months in such period.

Unaudited selected statistical information regarding average paying subscribers for our operating segments is shown in the table below. Offline and Other Businesses' average paying subscribers have been excluded from the table due to the immaterial size of its average paying subscriber base.

Three Months Ended June 30, 2013 Compared to Three Months Ended June 30, 2012

Revenue

Substantially all of our revenue is derived from subscription fees. Approximately 4.1% and 5.4% of our revenue for the three months ended June, 2013 and 2012, respectively, was generated through offline social events and advertising revenue. Revenue is presented net of credits and credit card chargebacks. Our subscriptions are offered in durations of varying length (typically one, three, six and twelve months). Plans with durations longer than one month are available at discounted monthly rates. Following their initial terms, most subscriptions renew automatically until subscribers terminate them.

Revenue increased 17% to \$17.6 million in the second quarter of 2013 compared to \$15.0 million in the second quarter of 2012. The increase can be attributed to higher subscription revenue in our Christian Networks segment. Christian Networks revenue increased 37% to \$10.3 million in the second quarter of 2013 compared to \$7.5 million in the second quarter of 2012. The increase in revenue reflects a 40% increase in direct marketing investments and a growing number of winback and renewal subscribers. Revenue for the Jewish Networks segment remained flat at \$6.5 million in the second quarter of 2013 and 2012. Revenue for our Other Networks segment decreased 22% to \$775,000 in the second quarter of 2013 compared to \$995,000 in the second quarter of 2012. The decrease in revenue is due to a decrease in average paying subscribers, reflecting the elimination of select inefficient online marketing investments. Revenue for the Offline & Other Businesses segment decreased 9% to \$86,000 in the second quarter of 2013 compared to \$94,000 in the second quarter of 2012.

Cost of revenue. Cost of revenue consists primarily of direct marketing costs, compensation and other employee-related costs for personnel dedicated to maintaining our data centers, data center expenses and credit card fees. Cost of revenue increased 35% to \$14.8 million for the three months ended June 30, 2013, compared to \$11.0 million for the same period in 2012. This increase can be primarily attributed to higher Christian Networks direct marketing expenses. Direct marketing expenses for the Christian Networks segment increased 40% to \$12.9 million for the second quarter of 2013, compared to \$9.2 million in the second quarter of 2012. The higher direct marketing expense reflects management's focus on increasing market share and cultivating greater brand awareness for ChristianMingle through a combination of online and offline marketing channels.

Sales and marketing. Sales and marketing expenses consist primarily of salaries for our sales and marketing personnel. Sales and marketing expenses increased 31% to \$1.3 million in the second quarter of 2013 compared to \$983,000 in the second quarter of 2012. The increase can be primarily attributed to growth in compensation expenses and consulting fees. Compensation expense increased by approximately \$187,000 as we continued to expand our product, customer acquisition, and Christian media business teams. Consulting fees increased by approximately \$108,000, reflecting efforts to build out our Christian Networks segment and select market research projects.

General and administrative expenses increased 11% to \$2.3 million in the second quarter of 2013 compared to \$2.1 million in 2012. The increase can be primarily attributed to higher compensation and rent expense. Compensation expense increased by \$74,000, reflecting two new hires filling vacant positions and one incremental new hire. Rent increased by approximately \$76,000 reflecting the straight-line costs associated with our corporate leases scheduled to expire in July 2013 and October 2018.

Depreciation. Depreciation expenses consist primarily of depreciation of capitalized software costs, computer hardware and other fixed assets. Depreciation expense increased 14% to \$472,000 in the second quarter of 2013 compared to \$413,000 in the second quarter of 2012. Interest (income) expense and other, net was \$43,000 of income in the second quarter of 2013 compared to \$113,000 of expense in the second quarter of 2012. The change is primarily due to non-cash foreign exchange rate fluctuations related to the intercompany loan with our Israel subsidiary.

Provision (benefit) for income taxes. We did not recognize a tax benefit for losses incurred in the second quarter of 2013, as we recorded a valuation allowance against our deferred tax assets. We recorded a provision for income tax of \$84,000 for the second quarter of 2013 which consists of \$48,000 of deferred tax related to an increase in the deferred tax liability associated with tax deductible amortization of goodwill and other indefinite lived intangibles, \$14,000 of foreign and state current tax and \$22,000 related to interest accrued on unrecognized tax benefits.

Net loss. Net loss for the second quarter of 2013 was \$3.3 million compared to a net loss of \$1.0 million in the second quarter of 2012. The increase in net loss generated in the second quarter of 2013 was primarily due to increases in our Christian Networks direct marketing investments.
